

This is a statement setting out the steps **Security Monitoring Centres Limited** and its subsidiaries (“SMC”) has taken during the financial year ending 31 DECEMBER 2020 (the “Reporting Period”) to ensure slavery and human trafficking is not taking place in any part of its own business or supply chain.

SMC supplies, designs, installs, services & monitors Fire & Security systems.

SMC is part of Carrier Global Corporation which provides HVAC, refrigeration, fire, security and building automation technologies and solutions CARRIER (“CARRIER”).

SMC is committed to ensuring slavery and human trafficking are not taking place in our business or supply chains and, to this end, took or continued to take the following actions during the Reporting Period.

CARRIER Code of Ethics

CARRIERs *Code of Ethics* (the “Code”) is the foundation of our culture. First adopted in 1990, our *Code* sets forth values and commitments that guide ethical decision making everywhere we do business. The Code applies to CARRIER and its controlled entities, worldwide. Among other things, the *Code* includes the following statement:

Our Company respects and protects human rights by:

Promoting responsible sourcing practices and setting expectations for our key suppliers through the Supplier Code of Ethics, including that suppliers must ensure safe and healthy work environments for their employees, avoid discrimination, ensure that child labor is not used, and avoid human trafficking.

Each year, CARRIER requires its employees to certify they have read and will comply with the *Code*. Compliance with the requirements of the *Code* is expected behaviour for all CARRIER employees. Violations of these requirements will result in appropriate corrective action.

CARRIER Anonymous Reporting Program

Employees and third parties (including suppliers) who observe or suspect a violation of the *Code* may ask a question or raise concerns in complete confidence through CARRIER’s Anonymous Reporting Program. Additional information about the Program is available [here](#).

Internal Training

CARRIER made and continues to make training available to company management and employees on recognising and mitigating the risk of human trafficking and slavery in supply chains. Employees with direct responsibility for supply chain management are assigned this training during their second year in that job function.

Supply Chain Expectations

To produce superior products in a responsible manner, we need suppliers who meet high standards for business practices, environmental responsibility and operational excellence. Accordingly, our suppliers are subjected to robust selection processes and criteria including verification against government denied party lists.

CARRIER’s standard contract terms and conditions of purchase require suppliers to comply with all applicable laws and regulations. In addition, our standard contract terms require suppliers to adopt and comply with a code of conduct or policy statement regarding business conduct, ethics and

compliance that satisfies, at a minimum, the principles set forth in the *Supplier Code of Conduct* ("*Supplier Code*").

The *Supplier Code* sets forth CARRIER's expectations for our suppliers, and aligns with the expectations we maintain for our own directors, officers, employees and representatives. Among other things, the *Supplier Code* requires suppliers to ensure child labour is not used in the performance of their work, whether or not related to CARRIER business. It also requires suppliers to fully comply with laws and regulations prohibiting human trafficking. This includes prohibiting the use of forced, bonded or indentured labour, involuntary prison labour, slavery, or trafficking in persons. Additionally, the *Supplier Code* states our suppliers will allow CARRIER and/or its representatives to assess their compliance, as well as the compliance of the suppliers' business partners, with the expectations set forth in the *Supplier Code* in performing work for CARRIER, including on-site inspection of facilities. The *Supplier Code* is available [here](#).

Further, CARRIER's standard contract terms require suppliers to have management systems, tools and processes in place that (a) ensure compliance with applicable laws, regulations, and requirements set forth in the *Supplier Code*; (b) promote an awareness of and commitment to ethical business practices; (c) facilitate the timely discovery, investigation, disclosure and implementation of corrective actions for violations; and (d) provide training to employees on compliance requirements, including the expectations set forth in the *Supplier Code*.

In the event a supplier commits any material violation of law relating to basic working conditions and human rights in their performance of work of their subcontracts with CARRIER, CARRIER has the right to terminate those subcontracts for default.

This statement has been approved by our Board of Directors on 22 April 2021.

A handwritten signature in black ink, appearing to read 'Colin Walters', is positioned above the printed name and title.
